Professional Summary

I am a Computer Science student pursuing B.Tech with strong foundation in Android Development and Java. I have hands-on experience in building mobile applications with Firebase integration. I am eager to apply my skills to an entry-level Android or Software Developer role and contribute to impactful projects.

Technical Skills

- Programming Languages: Java, Python, C, C++
- Mobile Development: Android Development (Java)
- Backend & Tools: Firebase, REST APIs, Git
- Design: UI/UX Design, Android UI

Projects

Apna Tiffin – Android Application

- Developed an Android application to connect students with local tiffin service providers.
- Implemented Firebase Authentication and Firestore database for user and provider data.
- Designed a clean UI displaying tiffin providers with name, photo, and ratings.
- Integrated a star-based rating system allowing users to rate providers without written reviews.
- Used Fragments for modular UI and improved navigation experience.

Experience

SOFTRONIX Solution Private Limited

June 2024 – July 2024

Android Development Intern, Amravati, Maharashtra

- Developed Android application features using Java.
- Worked on UI design and Firebase backend integration.
- Collaborated with team members to debug and optimize code.
